Campsite rules

The rules for living together in an orderly way at the MRTM campsite in Lostallo.

> **In short**
>
> - Season: 1 April to 31 October.
> - Speed limit 10 km/h. From 23:00 to 07:00 no motor vehicles, and the barrier is closed.
> - Dogs on a lead only. Other animals are not allowed.
> - Never empty caravan toilets in the toilet block: use the drain next to the blue container.
> - No cameras pointed at other guests' pitches or at shared areas.
> - Aluminium, glass, PET, cardboard and batteries go to the recycling point. All other waste must be taken away and disposed of yourself.
> - A booking is confirmed only after payment.
>
> This is a summary only: the full text below is what applies.

1. Purpose

These rules are intended to ensure that everyone at the MRTM campsite lives together in an orderly way.

These rules are accepted by paying the campsite fee and must be observed accordingly.

Breaches will be sanctioned by the Committee and may lead to expulsion from the campsite and from the MRTM association, without refund of any amounts paid.

To obtain a pitch you must be a member of the MRTM. Anyone interested in a pitch must send a request to the President of the MRTM. The Committee will decide whether or not the pitch can be allocated.

2. Length of the season

The campsite season starts on 1 April and ends on 31 October each year.

If 1 April falls on a Sunday, the Committee may decide to open the campsite one or two days earlier.

During the winter the MRTM provides a space behind the paddock for storage.

The MRTM **accepts no liability** for stored items.

3. Annual fee

The annual fee for the campsite season is set by the General Assembly.

The annual fee must be paid at least two weeks before opening. If the amount has not been paid, the pitch will not be set up until payment has been made.

If the amount is not paid within 2 months of the due date, the allocated pitch will be given to someone else who is interested.

4. Tidiness and waste disposal

Every camper must help keep the campsite tidy!

For recycling, see the separate recycling rules.

5. Toilets and showers

The toilets and showers must be kept tidy and clean.

Smoking and drinking alcohol in the toilets and showers are strictly forbidden.

The blue container (toilets and showers) is reserved exclusively for women staying on the campsite (fixed pitches).

The key is kept in a box with a code. Authorised users can get the code from the caretaker.

Emptying caravan toilets in the toilet block is strictly forbidden!

A drain hose next to the blue container, outside the facility, may be used for this.

6. Winter camping

For a supplement of CHF 100.00, caravans may be parked tidily during the winter, wherever the caretaker indicates.

7. Vehicle parking

Campers' vehicles must be parked so that emergency vehicles can get in and out at all times. To keep things orderly here too, vehicles that are not used for several days should be parked in the outside car parks.

8. Speed on the campsite

A speed limit of 10 km/h applies to all vehicles throughout the campsite. This applies to cars, motorcycles, e-bikes, scooters and other vehicles.

9. No driving at night

Driving on the campsite is prohibited at night from 23:00 to 07:00. During this time, driving motor vehicles inside the campsite is strictly forbidden. During this time the barrier at the entrance is closed.

10. Animals on the campsite

Dogs are allowed on the campsite provided they are always kept on a lead. This rule is out of respect for everyone: both those who are afraid of dogs running loose and those who are not. So dogs are welcome, but always on a lead. Other animals are **NOT** allowed.

11. Bookings

Except for seasonal campers, everyone who wishes to stay at the MRTM campsite must request it using the form on the website. This applies mainly to major events.

After submitting the online form, the applicant receives two emails: one with the details entered in the form and the other with instructions for paying the amount due.

These two emails confirm neither the booking nor the payment.

The booking confirmation is sent only once the payment has been received.

12. Cancellations and refunds

If cancellation and a refund are requested for a booking that has already been paid and confirmed, the following applies:

REQUEST RECEIVED	REFUND
more than 90 days before the start of the event	**full**
between 90 and 60 days before the start of the event	**80%**
between 60 and 30 days before the start of the event	**50%**
less than 30 days before the start of the event	**20%**

Any exceptions to these refund rules will be considered and decided by the MRTM Committee.

13. Trailers and accessories

Only tents, caravans and motorhomes may stay inside the campsite. Trailers (open or closed) and other towable equipment are not allowed inside the campsite or anywhere in the track area.

14. Cameras and video recording

a) To protect guests' privacy, it is forbidden on the campsite to install or use cameras, webcams, trail cameras or other fixed recording devices that cover any area other than your own pitch.

b) Each guest may film only their own caravan, tent or motorhome and the pitch allocated to them. The following may not be filmed, not even partly:

- other guests' pitches, caravans, tents and vehicles;
- the campsite's paths, car parks, facilities and other shared areas.

c) The ban also applies to live viewing without recording, and to cameras that can be turned or controlled remotely.

d) Anyone using a camera on their own pitch must indicate this with a clearly visible sign and, on request, show the caretaker the area being filmed.

e) The caretaker may at any time ask for a device that does not comply with these rules to be turned, covered or removed. If the guest does not comply, the caretaker may, with the prior approval of the Committee, remove them from the campsite. The persons concerned retain the right to take civil and criminal action (in particular under the Federal Act on Data Protection and Art. 179quater of the Swiss Criminal Code).

f) Ordinary souvenir photos and videos remain allowed, including during races and activities on the track. However, anyone who publishes them must respect other people's right to their own image.

Appendix: recycling rules

1. Introduction

This document sets out how waste is recycled at the track and at the temporary campsite of Mini Racing Ticino e Moesa (hereinafter MRTM).

The MRTM introduced waste separation a long time ago, so these rules are only meant to tell everyone who uses the facilities how to dispose of the waste produced during their days at the track.

2. Accepted materials

Aluminium | Glass | PET | Cardboard | Used batteries

Aluminium, glass, PET, cardboard and used batteries must be left clean and tidy at the recycling point at the track.

This waste is regularly collected and disposed of by the caretaker through the appropriate companies.

3. Materials not accepted

All other materials, such as wood, scrap metal, electrical appliances, awnings, etc., must be disposed of by each member or track user themselves.

This waste must be taken to the appropriate collection centres so that it is disposed of correctly.

It is strictly forbidden to put this kind of waste in general rubbish bags or to leave it at the collection point at the track.

Version 3 – November 2026. Translated from Italian. In case of doubt, the Italian version applies.
